The Paris Region Fellowship Programme

First call

Short guide

Call deadline Oct 21st, 2020

parisregion.eu/parisregionfp

This project has received funding from the European Union’s Horizon 2020 research and innovation programme under the Marie Skłodowska-Curie actions Grant Agreement no 945298-ParisRegionFP.
The Paris Region Fellowship Programme

This short guide was conceived to provide key information on the Paris Region Fellowship Programme to all interested parties. Researchers can refer to this document to prepare their application to the programme and find useful contact information.

The Paris Region Fellowship Programme

ParisRegionFP will reinforce network structuration and complete the existing programmes of the Paris Region and its partners for increased impact, by focusing on the recruitment and training of international emerging leaders to foster research and innovation in the Paris Region, in France.

OVERVIEW

The Paris Region ranks among the most competitive regions in the world for higher education, research and development, innovation and entrepreneurship.

The Paris Region Fellowship Programme (ParisRegionFP) aims to foster excellence in research, by training and developing international mobility and careers of outstanding researchers at post-doctoral level from a large panel of disciplines and of all nationalities.

These Experienced Researchers (ER) will design and implement their original research project in a first-class research group of their choice belonging preferably to one of the 13 “Domain of Major Interest” (DMI) labels endorsed by the Paris Region. The DMIs are key research sectors on which the Paris Region focuses policy support and investments to strengthen its international attractiveness and intersectoral mobility.

Two calls of 2-year postdoctoral fellowships, 26 applications each, are planned to recruit a total of 52 ERs.

ParisRegionFP will offer a novel international, interdisciplinary and intersectoral training programme for ERs, covering scientific, academic and industrial topics in the identified key sectors (or DMI scientific themes) as well as hands-on knowledge in non-research oriented transferable skills. The educational and research programme will be implemented by leading universities and 20 extra-academic partner organisations, covering actors from prestigious culture-related organisations and human resource actors to large industries and SMEs in various economic sectors.

The scientific actors will ensure infrastructure capacity and high-level environment to conduct excellent research. Extra-academic partners will contribute to the implementation of ParisRegionFP by hosting ERs during secondments or visits and/or by providing training, mentoring or career development opportunities.
## Domains of Major Interest

<table>
<thead>
<tr>
<th>23 labs</th>

Benefits

Main features of the programme

WHY TO APPLY?

RECRUITMENT CONDITIONS
- Benefit from a 2-year post-doctoral research fellowship with a minimum gross salary of 4740€/month, and supplementary budget for research and travel expenses

INDIVIDUAL-DRIVEN MOBILITY
- Develop your research topic and choose your host group among the renowned Paris area research organisations

PRESTIGIOUS ENVIRONMENT
- Be part of world-class research environment, with exceptional infrastructure capacities
- Increase networking possibilities

TRAINING PROGRAMME
- Develop technical and transferable (non-research related) skills thanks to training carried out by professional partners

CAREER DEVELOPMENT
- Get mentoring & career development support
- Benefit from secondment opportunities both in academic and non-academic sectors

QUALITY OF LIFE
- Live in Paris region thanks to facilitated logistic and welcoming services
- Get support provided for accompanying family members
Main requirements of the programme

ELIGIBILITY CRITERIA

- Compliance with the Marie Sklodowska-Curie mobility rule: applicants must not have resided or carried out their main activity (work, studies, etc.) in France for more than 12 months in the last three years before the call deadline;
- At the time of recruitment, applicants must be in possession of a doctoral degree (or have at least four years of full-time equivalent research experience);
- Applicants can choose a host research group belonging to one of the “Domains of Major Interest” (around 450 laboratories) to develop the research project of their choice. The programme accepts also host laboratories in the Paris Region not part of the DMIs.
- No other restrictions are implemented, the Paris Region applies strict equal opportunity principles for candidates’ selection and recruitment.
- Any ethical issues linked to the research project must be clarified by the Ethics self-assessment.

APPLICATION

Applicants need to apply to the fellowship through the call platform before October 21st, 2020 at 5:00pm CET (GMT+1). Incomplete applications will not be eligible, and no applications will be accepted after the call closure. The application contains the following documents:

- Curriculum Vitae and track record.
- Research project description. Based on individual-driven mobility principle, fellows will freely choose a research topic and an appropriate host (and secondment) organisation(s) and supervisor(s) fitting their scientific interest.
- PhD degree transcript (or letter of commitment from the University) and/or appropriate work certificate(s).
- Proof of identity.
- Declaration of honour on the mobility rule.
- 2 recommendation letters.
- Ethics self-assessment form.

APPLY NOW

parisregionfp.sciencescall.org
until October 21st, 2020
Main features of the process

Eligibility and ethical issues check

The applicants will be informed of their eligibility (completeness, compliance, ethical issues) by e-mail after the call closure. Only eligible applicants will be evaluated at the 1st selection round.

Evaluation by international / independent experts

Each application will be evaluated by 3 international / independent experts. They will evaluate both the profile of the candidate and the research project. An independent Selection Committee will rank the applications. Shortlisted candidates will be invited for the 2nd selection round.

Interview of shortlisted candidates

The online interview will consist of a 15-minute presentation followed by a 15-minute discussion between the candidate and the Interview Evaluation Panel members composed by the Selection Committee.

Funding decision

The Regional Scientific Council will formally approve the final list of selected candidates.

Feedback & redress procedure

All candidates will be informed of the results and next steps by e-mail. Redress/appeal possibility is available at all stages of the procedure by contacting: prfp@iledefrance.fr.

Indicative timing for the 1st call

| July 2020 | LAUNCHING OF THE CALL |
| October 2020 | CLOSING OF THE CALL Oct 21st, 2020 |
| November 2020 | EVALUATION BY INTERNATIONAL / INDEPENDENT EXPERTS |
| December 2020 | APPLICATIONS RANKED & SHORTLISTED |
| January 2021 | INTERVIEWS OF SHORTLISTED CANDIDATES |
| February 2021 | FUNDING DECISION / FEEDBACK TO CANDIDATES |
| April 2021 | POSSIBLE START OF THE FELLOWSHIP |
ParisRegionFP

Evaluation & selection criteria

1st round: evaluation/review of applications

APPLICATION QUALIFICATIONS 30%
- Quality of the CV
- Excellence of the track record

RESEARCH PROJECT (EXCELLENCE) 50%
- Quality, innovative aspects and feasibility of the research project
- Interdisciplinary and international aspects of the project
- Exposure to intersectoral (extra-academic) sector

CAREER DEVELOPMENT 20%
- Impact of the project on the professional career development

2nd round: interviews

PROFILE OF THE CANDIDATE 30%
- Prior achievements, academic and private sector work experience
- International experience,
- Cross-domain experience

RESEARCH PROJECT (IMPACT & IMPLEMENTATION) 40%
- Quality and novelty of the research project
- Coherence and effectiveness of the work plan
- Alignment with the DMI's and/or host laboratory's thematic perimeter

POTENTIAL OF THE CANDIDATE 30%
- Potential for leadership
- Openness and creativity, communication skills
- Career path vision

TRESHOLD and SCORING: Each criteria is scored from 1 to 5, from poor to excellent. The applicants should reach a threshold score of 7/10 to be interviewed.
